## The Wings of Champions.

Yonex continues to set the gold standard for shuttlecocks. From precise manufacturing techniques to precise flight tests, the Yonex commitment to technology shows in every shuttlecock. To make our championship shuttlecocks, we start with the finest materials. The feathers are chosen according to how well they will fly together, by size, by wing, by type. The head is made from the highest quality natural cork. Then they are flight tested for accurate speed measurement in real life performance.

Only Yonex puts its shuttlecocks through this unique series of tests to ensure the truest speed and flight. That's why Yonex is the official choice for major championships like the Japan Open, All England Open, the Malaysian Open, German Open, Thomas Cup, Uber Cup and the Asian Games. Now, they're available in the U.S. Ask your local dealer for Yonex shuttlecocks.

### A Message from Cass Salapatas-Metz, President of the Southern California Badminton Association.

As President, the question I am most often asked is, "What is the SCBA and what does it do for me?"

The Southern California Badminton Association is a non-profit organization which has been in existence for 48 years. As an Association we provide tournament information, organize local clubs, publish the *Shuttle Scuttle* newsletter, produce rankings and classifications for players, raise funds for badminton promotion, oversee the Yonex and Better Ways Grand Prix circuits, and promote junior and scholastic badminton. We also lend assistance to special projects and establish and administer merit awards. But working as a line of communication between players, clubs and schools is perhaps our most important function.

Through the hard work of many and the support of our badminton vendors, the SCBA is able to publish the current list of "Places to Play" and upcoming tournament schedule. With this booklet, we hope to provide needed and requested information for the Southern California player.

*Cass Salapatas-Metz*
